

DAKADA BOOTCAMP WEEK TWO DATA ANALYTICS PROJECT

DATE: 19/11/2021

Time: 2 Hours

Trainer: Manasseh Jackson

QUESTIONS

You are presented with a dataset named as “**Sales Data**”. From the given dataset, obtain the following:

1. Sales trend per Month (using 100% stacked line with markers)
2. Sales by region (using bar chart)
3. Sales by employee (using column chart)
4. Each items sales revenue
5. Customer revenue with each company
6. Item Sales. (Doughnut chart)
7. Top 5 Customers (by Revenue) (using Bar Chart)
8. Bottom 5 Customers (by Revenue) (using Bar Chart)

Build a dashboard for your plots and name it as **SALES TRACK PERFORMANCE DASHBOARD**. Apply slicers to your dashboard.

Note: your worksheets should be renamed accordingly

Rename your workbook as ‘DDA Week2 Project’ and Email your entire workbook to manejack725@gmail.com

Goodluck!!
